SUMMARY

Director of Product Management at Katalon with 20 years of experience across software engineering, delivery leadership, AI product management, and data science. Leads product direction for Katalon's AI-powered capabilities, including TrueTest and Katalon AI. Known for turning ambiguous customer problems into product strategy, guiding cross-functional teams from discovery through launch, and using data to improve adoption and customer outcomes.

SELECTED IMPACT

- Took TrueTest from proof-of-concept through market launch as an AI-powered product for generating resilient regression coverage from real user journeys.
- Strengthened product strategy, product analytics, and cross-functional go-to-market execution for Katalon's AI capabilities.
- Managed a 150-200 person delivery business unit serving US software clients, exceeding revenue growth, people retention, and delivery quality goals for 2 consecutive years.
- Ramped a 120-engineer program with 10 Scrum teams across 3 SaaS products, partnering with product managers on backlog prioritization and release planning.
- Improved a client's Net Promoter Score by 50% after transitioning customer support services from a previous vendor.

CORE STRENGTHS

- AI/ML product strategy, generative AI, autonomous testing, and developer tools
- Product vision, roadmap planning, discovery, validation, launch, adoption, and growth
- SaaS platforms, test automation, CI/CD, DevOps workflows, and software quality
- Customer discovery, executive communication, go-to-market alignment, and stakeholder management
- Product analytics, experimentation, anomaly detection, and data-informed decision making
- Engineering leadership, distributed teams, agile delivery, Nexus, SAgE, Scrum, and Kanban

EXPERIENCE

Katalon, Inc. - Director of Product Management

Jul 2021 - Present | Canada

- Lead product direction for Katalon's AI-powered capabilities, including TrueTest and Katalon AI.
- Define product vision, strategy, roadmap, discovery, validation, and delivery for AI-powered product initiatives.
- Partner with UX, data science, engineering, product marketing, marketing, community, sales, success, and support teams to launch and grow AI/ML and generative AI capabilities.
- Maintain close customer rapport to understand testing challenges and shape AI-based solutions.
- Use product analytics to monitor adoption, identify trends and anomalies, and adapt product strategy.
- Mentor product managers on AI capabilities and organize company-wide AI enablement programs, including monthly AI panels and annual hackathons.
- **Achievement Highlights:** took TrueTest from proof-of-concept through market launch; strengthened AI product strategy, product analytics, and cross-functional go-to-market execution for Katalon's AI capabilities.

KMS Technology - Vice President of Delivery

Jun 2018 - Feb 2020 | Vietnam

- Managed a business unit of 150-200 software developers and testers, supporting US clients through software delivery consulting and engineering execution.
- Owned recruitment, people development, customer relations, budget management, and delivery risk management.
- **Achievement Highlights:** exceeded revenue growth, people retention, and delivery quality goals for 2 consecutive years.

KMS Technology - Director of Delivery

Apr 2015 - Jun 2018 | Vietnam

- Managed multiple client accounts in parallel, delegating stable accounts to capable managers while staying hands-on with high-complexity programs.
- **Achievement Highlights:** formed and executed a 120-engineer program with 10 Scrum teams working on 3 products for a SaaS restaurant management platform.
- Partnered closely with product managers to manage and prioritize product backlogs and release planning.

KMS Technology - Senior Engineering Manager

Jan 2013 - Apr 2015 | Vietnam

- Managed parallel delivery programs, including a healthcare data warehouse system and a global e-commerce solution account.
- Planned delivery, managed risks, and supported customer relationships across distributed teams.
- **Achievement Highlights:** achieved an average Customer Satisfaction score of 4.3 out of 5 across projects.

KMS Technology - Engineering Manager

Sep 2010 - Jan 2013 | Vietnam

- Managed a 30-engineer customer support team for a global e-commerce platform.
- Led customer support, upgrade services, and rapid application development teams.
- **Achievement Highlights:** improved the client's Net Promoter Score by 50% after one year of transitioning support services.

Catglobe Vietnam - Production Manager

Nov 2008 - Aug 2010 | Vietnam

- Led a consultant team delivering customized CRM solutions for European clients.
- Worked with customers to define scope and tailor CRM capabilities to business needs.

Catglobe Vietnam - Team Leader

Oct 2007 - Aug 2008 | Vietnam

- Led engineers developing the data module of a CRM platform and coordinated feature delivery.

Catglobe Vietnam - Developer

Apr 2006 - Oct 2007 | Vietnam

- Developed the data module of a CRM platform and started career after graduating as valedictorian.

EDUCATION**Master of Data Science**

University of British Columbia, Vancouver, Canada | Sep 2020 - Jun 2021 | GPA: 95/100

Accelerated 10-month program in computer science, statistics, machine learning, and real-world data applications. Capstone: automated data pipeline and survival-analysis dashboard for employee attrition prediction.

Bachelor of Engineering, Computer Science and Engineering

VNU-HCM University of Technology, Vietnam | Sep 2001 - Mar 2006

Valedictorian - University Gold Medal

CERTIFICATIONS

- Professional Scrum Product Owner I, Scrum.org | Jan 2021
- Scaled Professional Scrum, Scrum.org | Jan 2021

SELECTED PROJECTS AND WRITING

- Data Science EDA Package: Python package supporting exploratory data analysis workflows.
- COVID-19 Data Portal: dashboard for global and country-level COVID-19 statistics using Python and Plotly Dash.
- Online Purchase Intention Prediction: evaluated machine learning models for e-commerce purchase intent prediction.
- Writing: Surviving a 7-Scrum-Team Project; Hypothesis Testing Simply Explained.
